

Z-Fold Card

Dawn Skene

To make this card, you will need:

[Scor-Buddy](#)

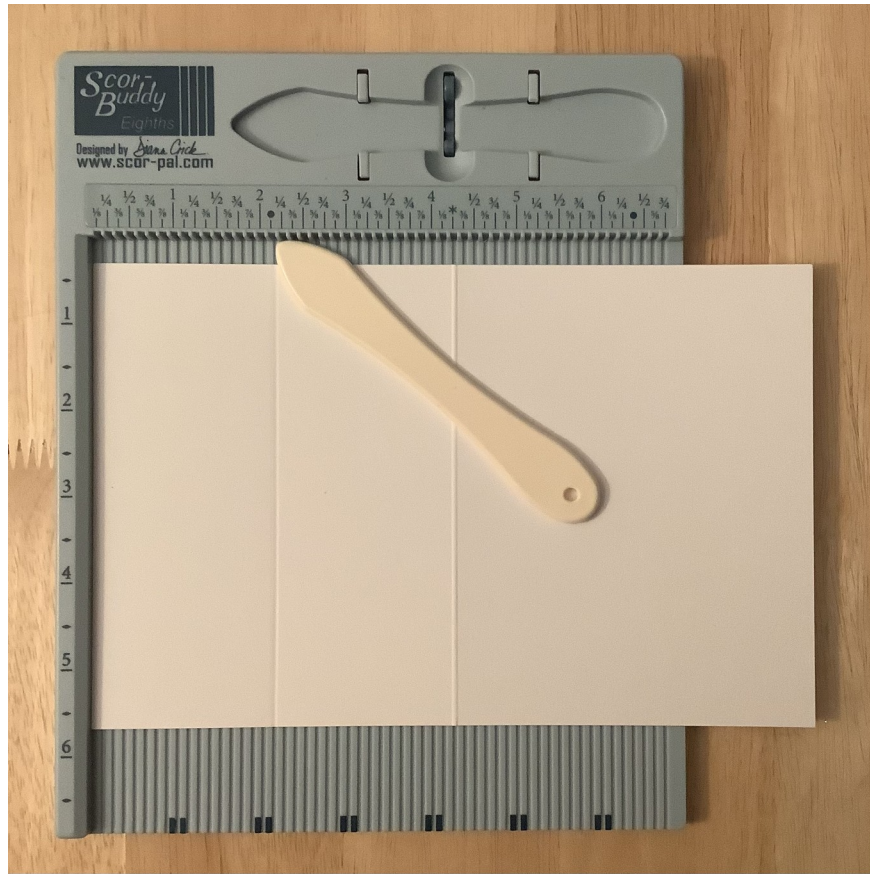

[Scor-Tape](#)

Cardstock base - 5 1/2" x 8 1/2"

Supplies to decorate your card. I used Gina K. Designs Peaceful Violets stamp set and dies, So Many Sentiments stamp set, Obsidian Amalgam ink, Wild Dandelion ink, and Spectrum Noir markers.

Step 1

With the long edge of the cardstock at the top of your Scor-Buddy, score at 4 1/4". Flip the cardstock over and score at 2 1/8". It is easy to find that measurement, as there is a circle on the Scor-Buddy.

Step 2

Fold the cardstock along the score lines, placing the bump on the inside of each fold.

Step 3

To decorate, use an image that is large enough to cover most of the front of the card. If you don't have a large image, use a square, circle or other shape as a background.

The large image will cover part of the inside of the card, so you can stamp your sentiment there or write a message.

I blended some ink on the top flap and stamped some of the images in the same ink.

Step 4

Tape the large image onto the top flap, making sure to only put tape on the top half of the image. Decorate the inside of the card, if you wish.
