

## HALF WINDOW CARD

Vicki Hook©2008 All rights reserved

### Supplies:

Scor-pal

5 1/2" x 8 1/2" solid cardstock

1 7/8" x 5 1/4" patterned paper

Coluzzle Cutting System with Nested Circles template (or other circle cutting system)

Various circle punches (optional)

Scraps of cardstock for various sizes of circles

Stamps

Ink

Adhesive

### Instructions:

#### Step 1:

Place the cardstock **RIGHT SIDE UP** in the top left corner of the Scor-pal with the long sides horizontal. Score and fold at 4 1/4".

#### Step 2:

Open it back up so that you're only cutting through the front layer. Place the Coluzzle Nested Circle template over the card front so the stopping guides are at the top and bottom. Center the template side-to-side and top-to-bottom on the card front. Cut **ONLY THE RIGHT HALF** of the circle, using whichever line you prefer.

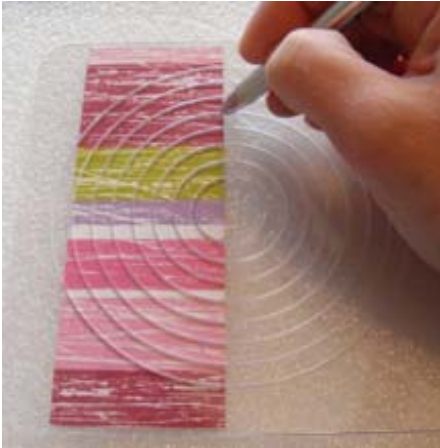

**Step 3:** Place the cardstock **WRONG SIDE UP** on the Scor-pal to top and left fence. Score on the 6 3/8" line from the top of the cardstock to the top of the half-circle, and from the bottom of the half-circle to the bottom of the cardstock. Solid black lines indicate score lines.

#### Step 4:

Fold card in half and fold the front back toward you on the score lines. The half circle will remain unfolded. **(See Figure D)**

**Step 5:**

Place the Coluzzle circle template over the 1 7/8" x 5 1/4" patterned paper, centering it top-to-bottom. The right edge of the paper should line up with the template stopping guides at the top and bottom. Cut a half circle from the patterned paper using one size bigger than what you cut in step 2. Adhere to the front of the card.

**Step 6:**

Cut various sizes of circles from your cardstock scraps using your Coluzzle template or circle punches.

Adhere the circles in layers on the half-window circle and also on the inside.

**Step 7.** Stamp and embellish as desired.
