

Project Recipe:

Scoring Tool - [Scor-Pal](#)

Adhesive - [Scor-Tape](#)

Paper - The Grade School Stack by DCWV

Ribbon - Really Reasonable Ribbon

The backpack starts with cardstock 12" by 8". On the 12" side score at 5" and 7". Rotate to the 8" side and score at 1", 2", 6" and 7"

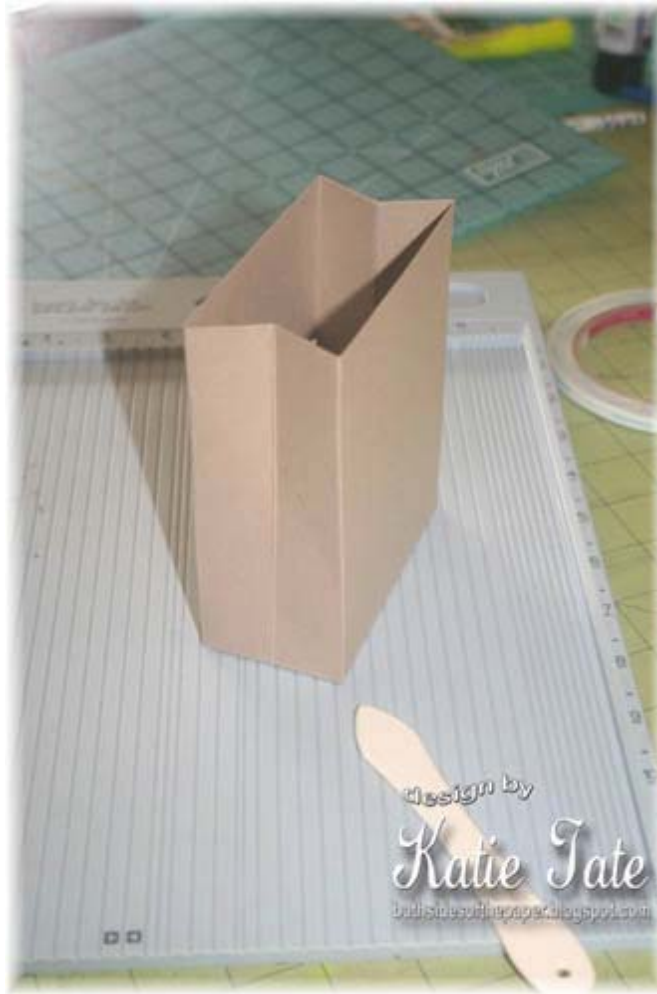

Burnish all score lines and snip on the flaps as in the photo

Score on the center of the flaps and bend inwards as in the photo.

Remove one flap from the each side (opposite sides) on the long side as they make the sides too stiff to fold. Add [Scor-Tape](#) to the flaps as shown.

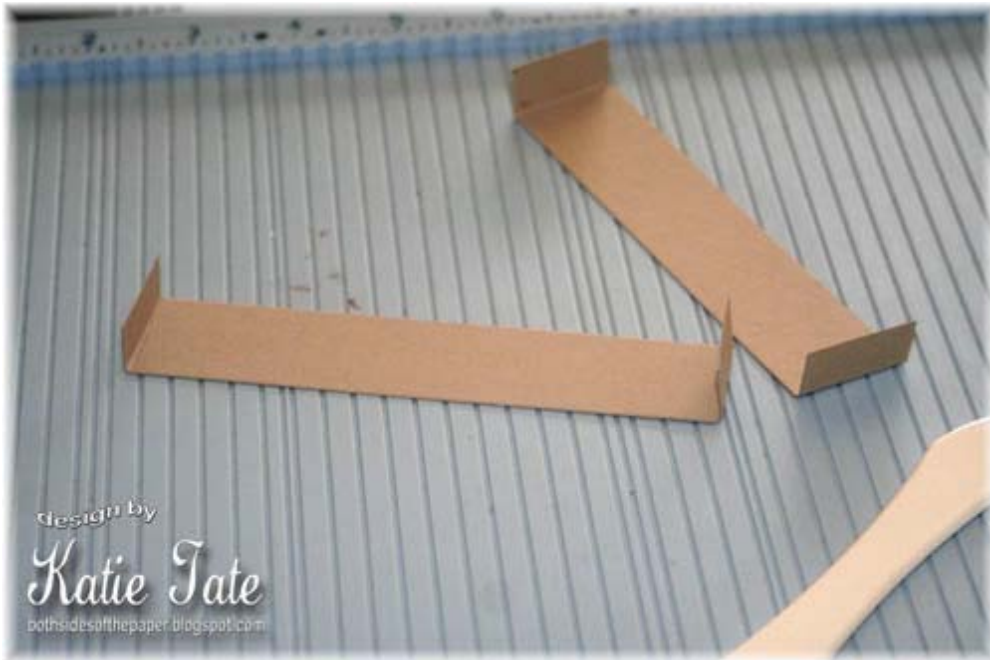

Remove the cover on the Scor-Tape and adhere the sides to form the gift bag.

To make the flap use a piece of cardstock 5" by 4", score at 1" and 3" on the 5" side. (I will admit I would make this a little shorter next time but wanted to show exactly how this one was made). I would have scored at 1" and 2" and made the length 3" not 4". Angle the corners as shown in the photo.

The straps are made from 6" by 1" scored at 1/2" and 5 1/2"

Add Scor-Tape to the 1/2" flaps

Add the straps and then decorate to your style.

I made 2 slits in the flap and the backpack and threaded ribbon through to form a closure.
