

Sanded Grid Card

Cary Eldred© 2008 All Rights Reserved

Supplies:

Scor-Pal®
Scor-Tape™
Sandpaper
Personal Trimmer or scissors
Card Stock, 5" x 10" (red in our sample)
Card Stock, 4 1/8" x 4 1/8" (cream in our sample)
Card Stock with white core, 4 x 4 (black in our sample) **It is very important the paper has a white core.**
Card Stock, designer paper, 3/4" x 5" (striped in our sample, Crate Paper)
Embellishments (velvet flower brad Creative Imaginations, pearl string, self-adhesive pearls Joy! crafts)
Stamps (sentiment, Carte Postale SU!, French Script SU!, hearts SU!)
Ink (bravo burgundy SU!, Versamark Tsukineko)
Embossing Powder, vanilla SU!

Instructions:

Step 1:

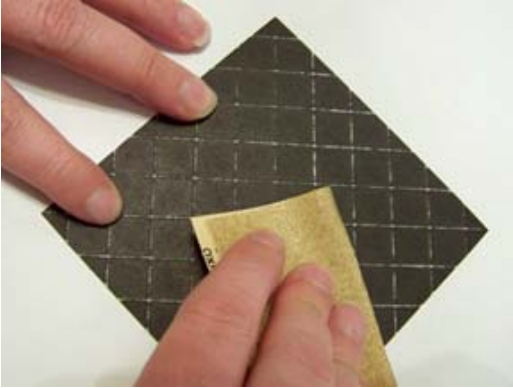

With the 10" length along the top and left fence, score at 5". Finished card size is a five inch square.

Step 2:

Align the corner of the 4 x 4 piece of card stock with the white core, to the 6" mark. Make sure the opposite corner is aligned to the same groove. Score. Keeping the paper in this position, hold it firmly and score on either side of this first score line at every half inch.

Step 3:

Rotate the 4 x 4 card stock to the other corners and repeat Step 2.

Step 4:

Turn the card stock over. The raised score marks, the embossed side are on top. Sand so the white core of the paper shows through.

Step 5:

Adhere the sanded card stock to the 4 1/8" x 4 1/8" piece of card stock, adhere the entire piece to the card.

Step 6:

Attach the flower brad and pearl strands to the strip of designer paper and adhere to the card. Stick the self-adhesive pearls randomly to the sanded grid.

Step 7:

Stamp sentiment and emboss. This completes the card.
